QUALITY ★★★★☆

BTT 5000

Compact Bluetooth transmitter with aptX technology and dual pairing functionality

The acoustic quality of premium hifi components has a life cycle that is difficult to bring in line with the volatility of current technology. Thanks to the BTT 5000 proud owners of powerful hifi systems now no longer need to despair when it comes to uncomplicated wireless streaming from various music sources. The compact Bluetooth transmitter forms a flexible link between the classic hifi world and modern music streaming. Thanks to the supplied 3.5mm jack cable, the BTT 5000 can be connected to any device with the corresponding input. aptX guarantees an artefact-free transmission of the signal in CD quality. A special feature of the BTT 5000 is its „dual pairing“ mode, which enables two devices to be connected to the transmitter simultaneously.
